

Pascal's triangle colouring sheet - 5 colours

Choose a colour for each column in this chart, and colour it in, add more rows if you need to

1	2	3	4	5
6	7	8	9	10
11	12	13	14	15
16	17	18	19	20
21	22	23	24	25
26	27	28	29	30

In this triangle, each number is the sum of two above it. Complete the triangle, and colour each diamond, following the chart on the left

Hint: if the numbers end in the same digit, they have the same colour, so you don't need to worry about the tens
